Welcome to your Product Selection Guide 2017

This Product Selection Guide is designed to help you to choose the right products to build up an access control system. Paxton produce a variety of security solutions to suit different site requirements. Our one door philosophy means doors can be added as required or when budget becomes available.

Networked Access Control

Our networked access control system, Net2, is administered using one or more PCs and can be monitored and managed from a central location. Our door controllers come as IP, wireless or battery powered.

Door Entry

Our door entry system, Net2 Entry, is an advanced one cable door entry system with built-in access control capabilities.

Standalone Access Control

Our standalone access control is a non-networked system made up of readers or simple door controllers located at each door. Standalone systems are administered via the use of tokens or card packs.

We have two types of Standalone system, Compact and Switch 2.

New in this edition

Net2 Entry Touch panel

Net2 Entry Touch panel is the latest addition to our door entry range, compatible with Net2 access control. The new panel comes with premium features, including a quality 7-inch colour touch screen with customisable options, making Net2 Entry suitable for more sites than ever before.

- Durable, chemically strengthened glass
- Simple navigation with dynamic search functionality
- Easy to read - anti-glare screen for optimal daytime viewing and high contrast themes
- Personalise with multiple theme options or add a company logo to the welcome screen
- Upload contact images for quick visual recognition in the address book
- Advanced sound processing with echo cancellation provides clear sound quality for busy areas
- Line-out for use with T-Loop antenna for users with hearing aids

iF DESIGN AWARD 2017 winner – international recognition for design excellence in Building Technology.

reddot award 2017
winner

Winner of Red Dot Award: Product Design. The Red Dot is the award for high design quality, awarded to products that feature an outstanding design.

Paxton Readers Now Have Genuine HID Technology™

The majority of Paxton readers can now read HID™ 125kHz Proximity tokens, when enabled with an activation licence card. If required these readers can still be enabled to have Wiegand, via a separate activation licence card. Look for applicable readers in the Net2 Readers section from page 11.

Networked Access Control

6 Wired Controllers - Net2 Plus

Net2 plus

- A networked IP ready single door controller
- On-board TCP/IP connection allows direct connection to a network
- Can connect together with dedicated RS485 network

Sales code 901-050
Price £25.00
More information <http://paxton.info/2004>

10 Building Control - I/O Board

The Net2 I/O board is a simple, yet powerful addition to the Net2 system. It can be wired alongside a Net2 door controller, to switch power on and off to electrical equipment to save money and energy. The Net2 I/O board can control lighting, heating, water and air-conditioning by using the Triggers and Actions application in the Net2 software. These actions can be programmed for a particular time, or in response to a specific Net2 event.

- Connect directly to a LAN/WAN only
- Enable integration with lighting, heating and more
- 4 inputs and 4 outputs on the Net2 I/O board

Please note, Net2 I/O boards work as part of the Net2 system. They are not door controllers.

When a valid fob is presented to the reader, the I/O board can be programmed to trigger the power to lighting, heating and electrical equipment.

Net2 I/O board

Sales code 489-710
 Price £245.00
 More information <http://paxton.info/1343>

Net2 I/O board - Plastic housing

Door Entry

22 Door Entry

Net2 Entry - A smart, simple door entry system

Net2 Entry is a door entry system that works standalone or alongside Net2 access control, combining door entry with key features of Net2. Net2 Entry is a scalable solution, allowing expansion of up to a hundred panels and a thousand monitors.

- Available in three variants: the Net2 Entry Touch panel with an advanced 7-inch colour touch screen, Net2 Entry Standard panel in anthracite grey and the Net2 Entry VR panel in stainless steel
- Just 3 components - monitor, panel and door controller
- All variants available in flush, surface and rain-hood versions – suitable for a range of environments
- Intruder alarm integration – customers set the alarm in Net2 from the Net2 Entry panel for extra convenience
- Personalise the Net2 Entry Touch panel with multiple theme options and contact images for quick visual recognition
- Super tough IK10 rated vandal resistant panel option in 316L marine grade stainless steel
- Pan/tilt camera functionality to capture an angled view
- Low light sensitivity camera – ideal for use day or night
- Add a secondary IP camera for higher security sites
- Video voicemail, enables visitors to leave a video message
- Reads Paxton and MIFARE® token technology
- SIP compatibility – the door can be answered from smartphone, tablet or PC*

*3rd party app required

● Indicates readers that have functionality to read HID™ 125kHz Proximity or HID™ Wiegand tokens, when enabled using Genuine HID Technology™ 125kHz Proximity activation licence cards or Wiegand activation licence cards, sold separately (see Tokens section, page 16).

Standalone Access Control

28 Standalone - Switch2

Switch2

Switch2 is a standalone system that comes as a separate single door controller and reader. The door controller is fitted on the secure side of the door, with the reader fitted on the other side. Switch2 offers a secure solution for customers wishing to control door access, who do not need the reports on users' movements provided by a PC based access control system.

38 More Information

Free Training

We offer practical training for our complete range of networked, standalone and door entry products. Sessions are designed to provide you with the essential knowledge needed to install Paxton products quickly and efficiently.

- Ensure accurate installation
- Reduce time on site
- Courses are free of charge
- Materials and equipment provided

For more information and to book a session, go to <http://paxton.info/1940>.

Industry Leading Technical Support

Call Paxton and you will be put straight through to our expert support team, based at Paxton House. Our friendly team are available from 7am-7pm Monday-Friday, and 9am-1pm on Saturdays.

Call: 01273 811011

Email: support@paxton.co.uk

Skype: paxton.support

Sales Literature

We offer an extensive range of brochures and sales guides to support you every step of the way, from sales to specification.

All documentation is available to download from our website at <http://paxton.info/474>.

Net2 Integration

As UK market leaders in access control, Paxton want to ensure that we are providing the most sophisticated solutions available. We do this by working with quality manufacturers to provide the best of breed solutions and making them available to you. You can see a map of our Net2 integration partners at <http://paxton.info/2487>.

Paxton 5 Year Guarantee and Ultimate Returns Policy

We offer a five year guarantee on all our products.

All you have to do is send us your damaged Paxton product within five years of purchase and we will repair it or send you a new one. Once we receive the product it will be processed within two working days. You will receive a full report via email and your new product will be sent back to you.

We want to make life as easy as possible for installers of Paxton products. Our five year guarantee and ultimate returns policy helps us to do this successfully.

Distributors - Where to Buy

Our UK distributors are listed below. We regularly review their stock and make sure that it is up-to-date, correctly stored and free from defects. To ensure the quality of your Paxton system, we advise that you purchase only through a franchised distributor.
